Dear

Thank you for your email requesting information under the Freedom of Information Act 2000. Please find the response attached as requested.

Could you kindly provide figures for the number of cases of appendicitis identified/treated under your Trusts by year from 2015 to date?

Please group the figures by age groups under 18, from 18 to 49, from 50 to 69 and from 70 and over. Please also include, in the same grouping, the number of deaths as a result of these cases.

The number of cases of appendicitis identified/treated under CPFT from 2015 to the present is zero (0). Cambridgeshire and Peterborough NHS Foundation Trust is a provider of community and mental health services.

We suggest you contact the local Acute Trusts, who will be better placed to assist in your query.
